Brayton

Simple, clean, elegant. Little more needs to be said of the **Kathryn** guest chair. It has four back options: open back, wood and upholstered panel, fully upholstered panel, and fully upholstered ribbed. The hardwood beech frame comes in 20 finishes and can be upholstered with the manufacturer's textiles or the customer's own material. 250 Swathmore Avenue, High Point, NC 27263; 800-627-6770; brayton.com. **circle 291**

Idea Space Design

Thanks to its Lucite base, the chocolate-brown seat of the **Solo** bench seems to defy gravity. The cushion can be covered in leather, vinyl, or fabric. The bench is 60 inches long and 21 inches high; three widths—18, 48, and 72 inches—are available. 351 South Robertson Boulevard, Beverly Hills, CA 90211; 310-360-7140; ideaspacedesign.com. **circle 284**

André Joyau

Kids are quick to recognize the pleasing simplicity of the square—as are the designers of the **Plus Petite Square** children's chair. Made of zebrawood, ash, and paulownia, the seat comes in lichen, chocolate, zebra, and natural finishes. It's 24 by 12 by 12 inches. 20 Van Dam Street, Brooklyn, NY 11222; 718-943-2614; andrejoyau.com. **circle 290**

Geoffrey Bradfield

Following on the heels of the successful **Coco** chair, this manufacturer has introduced the two-seater **Coco** sofa. Acrylic arms bookend a smooth expanse of Ultr suede, and nickel nailhead trim adds a classic accent. The couch measures 65 inches long, 27 inches deep, and 28 inches high but can be custom-sized. 114 East 61st Street, New York, NY 10021; 212-755-7024; geoffreybradfield.com. **circle 287**

Outer Limits

Shimmering visions of swinging-sixties London imbue the **Berton** chair and ottoman, part of the New Mod collection. The chair is 32 by 38 by 45 inches; the ottoman is 30 by 24 by 17 1/2 inches. The upholstered pieces are available in a whopping 200 fabric choices. Groovy. 7333 Coldwater Canyon, No. 22, North Hollywood, CA 91605; 818-758-9200; outerlimitsinc.com. **circle 289**

i4 Mariani

The otherworldly **Ginza** chair is a true original: Wheels are set into the bottom of a saddle-leather-covered steel back panel, which is attached to curving armrests and a seat, from which two slim, angled steel legs protrude. The legs can be chromed or varnished in eight colors with epoxy powder paint. There are 23 standard colors of saddle leather, and more than 50 fabrics for the seat. 949 Third Avenue, New York, NY 10022; 212-753-6389; imarianiusa.com. **circle 288**

eco-friendly

Milliken

This is one green product that's sure to stick. Apply **TractionBack** to any Milliken modular carpet, tamp it down, and—voilà—the carpet is installed. What's more, it can be easily pulled up again. The absence of messy adhesives eliminates one of the most serious environmental issues related to floor coverings: indoor air quality. The all-renewable, recyclable backing contributes to LEED certification in a slew of categories. 201 Lukken Industrial Drive West, LaGrange, GA, 30240; 800-241-4826; milliken地毯.com. **circle 688**

Lightolier

Lytecaster Energy Star-rated downlights win the approval of this government-backed program for their long-lasting and efficient distribution of light. Made entirely of aluminum, these recessed luminaires accept a variety of lamping, from 13 to 26/32 watts, and shine in both residential and commercial settings. 631 Airport Road, Fall River, MA 02720; 508-679-8131; lightolier.com. **circle 687**

André Joyau

X marks the spot with the stylish and sustainable **Cross** side table, part of the Plus Grande collection. Offered in a milky cerused finish, this sculptural piece is made with salvaged white oak. Other options for finishes are natural, ebonized, and dark brown; the piece is 18 inches wide by 22 inches deep by 20 inches high. 20 Van Dam Street, Brooklyn, NY 11222; 718-963-2616; andrejoyau.com. **circle 684**

Lamin-Art

Company design director Hans Mutzke gave his innovative new **Abacá** surfacing the durability of a high-pressure laminate and then added a confetti of recycled banana-plant fibers. The result is a natural, dimensional look in 10 earthy and essential colors, from Burlap to Lagoon blue. 1670 Basswood Road, Schaumburg, IL 60173; 800-323-7626; laminart.com. **circle 685**

Eco 21

Designer Cristiano Ribeiro do Valle turned for inspiration to the rainforests of his native Brazil to create the **Aruaque** table. Made from pequiá wood and inspected and approved by IBAMA, Brazil's premier environmental group, the table features a 44-inch round glass top that offers a clear view of the natural-finish semicircular legs. It stands 23½ inches high. 101 Henry Adams Street, Suite 366, San Francisco, CA 94103; 415-255-0992; eco21usa.com. **circle 686**
