## seating

### André Joyau

The **Furo** bench is as eco-friendly as it is design-savvy. Made entirely of reclaimed hardwood salvaged from old beams, it is available in natural, ebonized, dark brown, and cerused finishes. It measures 27 by 17½ by 12 inches. 20 Van Dam Street, Brooklyn, NY 11222; 718-963-2616; andrejoyau.com. **circle 401**

### Powell & Bonnell

Sink into the aptly named **Swank** lounge chair. The piece's distinct silhouette sports wood feet, tight upholstery, and contrast piping that command the eye, but it is the deep, loose seat cushion that lures sitters. How soft it is! 236 Davenport Road, Toronto, ON, Canada, MSR 1J6; 800-272-2058; powellandbonnell.com. **circle 402**

### Cumberland

The square yet sleek **Alia Lounge** wows: a maple surround envelops a plush upholstered interior, and all float over a slim, elegant frame. Choose a frame of either solid wood or stainless steel in polished, satin, or statuary bronze. Wood is offered in the manufacturer's standard and custom finishes. It is also available fully upholstered. 321 Terminal Street Southwest, Grand Rapids, MI 49548; 800-401-7877; cumberlandfurniture.com. **circle 403**

### Ted Boerner

**Drift** off. This updated sleigh bed strives to create a sense of ease with its rounded corners and frame cocooned in upholstery. Have it with or without a footboard, in standard dimensions, with feet of walnut, cherry, white oak, maple, or mahogany. Custom sizes and finishes are available. 537 Greenwich Street, New York, NY 10013; 212-675-5665; tedboerner.com. **circle 405**

### ddc

Let **Lava** flow into your room. The versatile sofa offers a variety of sitting and reclining positions. It is framed in beechwood, the seat and backrests sport multiple layers of polyester and upholstery fleece. Available in a wool-polyester blend in 60 colors, or three types of leather in 50 colors. 181 Madison Avenue, New York, NY 10016; 212-685-0800; ddcnyc.com. **circle 404**

## furniture

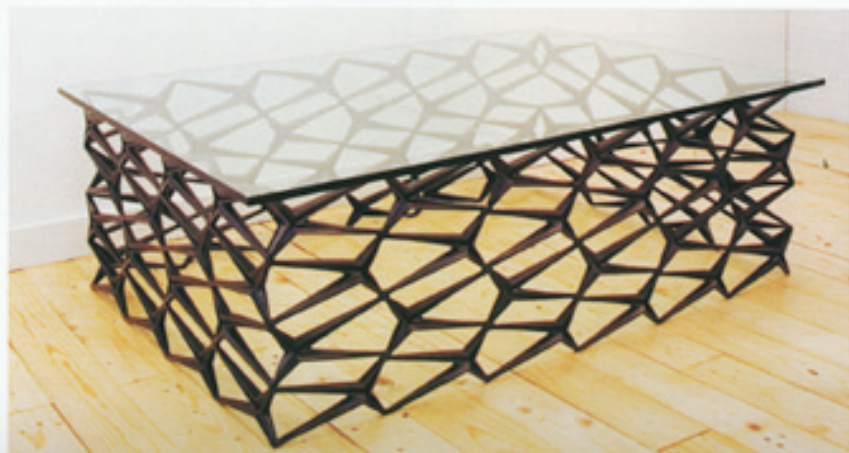

### Jane Hamley Wells

Who's that behind those Foster Grants? It's the **D-Fly Coffee Table**, part of the Sunglass group of outdoor furniture. A stainless steel frame holds the acrylic tabletop (or lens, if you prefer). In addition to the triangular shape shown, Sunglass has square and round correlates, including dining tables. 1512 North Hoyne Avenue, Chicago, IL 60622; 773-227-4988; janehamleywells.com. **circle 536**

### André Joyau

The new world order encounters an adversary as the **Disorganized Leg Table** enters the scene. A calm walnut top hovers dangerously close to the haphazard arrangement of stainless steel at the base. At 30 by 48 by 30 inches, it's an obvious choice for similarly scattered breakfasts. 20 Van Dam Street, Brooklyn, NY 11222; 718-963-2616; andrejoyau.com. **circle 537**

### Uhuru Design

City living can make you feel **Fenced In**, but Jason Horvath's coffee table shouldn't cause much claustrophobia. The limited edition design is made from repurposed cast iron fence sections, which are refashioned into a new fence shape that in turn is based on an Art Deco pattern. Ask about custom sizes. 160 Van Brunt Street, Brooklyn, NY 11231; 718-855-8082; uhurudesign.com. **circle 538**

### Silas Seandel Studio

It's official: The cocooning phenomenon is over. How else to explain **Monarch**, patterned on the butterfly's post-pupa days? The dining table's flourish comes from bronze with a polychrome patina that holds an inset glass top. Finishes include brass, bronze, steel, and copper. Sizes are limitless, and there's a cocktail version, too. 551 West 22nd Street, New York, NY 10011; 212-645-5286; silasseandel.com. **circle 540**

### Woodkraft International

Mobile-minded audio aficionados should welcome **Audio Porte**, a platform for a number of components that all plug into a central port. As a result, the unit rolls on casters from one location to another, requiring just a single outlet. Painted finishes on the medium-density fiberboard include solid suede, crystalline, and mosaic. 1173-A Second Avenue, New York, NY 10021; 866-609-6070; woodkraft.net. **circle 539**
